EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Cha on 11/26/03. The amendment to the specification was agreed upon in order to provide a trademark with its generic terminology. Claim 4 was amended to provide proper antecedent basis for the term "revolution shaft". Claim 6 was amended to avoid a 35 USC 112 2nd Paragraph rejection for using a trademark in a claim and substituting the term "teflonTM" with its generic term "polytetrafluoroethylene".

The application has been amended as follows:

In the specification:

At line 2, page 3, "teflonTM pad" was deleted and - - polytetrafluoroethylene pad, wherein polytetrafluoroethylene is sold under the trademark teflonTM - - was inserted.

At line 6, page 5, "teflonTM pad " was deleted and - - polytetrafluoroethylene pad, wherein polytetrafluoroethylene is sold under the trademark teflonTM - - was inserted.

In the claims:

Claims 7-10 were cancelled.

In claim 4, line 2, after "screw coupled to", "the" was deleted and - - a - - was inserted.

In claim 6, "teflonTM" was deleted and - - polytetrafluoroethylene - - was inserted.

The following is an examiner's statement of reasons for allowance: The cited prior art fails to disclose or reasonably suggest the claimed apparatus having the combination of a measuring device, controller and transfer device as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References A-M in page 1 and A-B in page 2 of PTO-892 have been cited to show the state of the art.
